

Experiment-03

Create a simple cloud software application for Car Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

The image displays two screenshots of a web application for Car Booking Reservation System, running on a Zoho Creator environment. The application is titled 'Car Booking' and is in 'Development' mode. The user is logged in as 'Vijay as -MySelf-' and the trial expires in 14 days.

Top Screenshot: Book a Cab

The 'Book a Cab' form includes the following fields:

- Name ***: Split into 'First Name' and 'Last Name' input boxes.
- Employee ID ***: A single input box.
- Email Id ***: An input box with an email icon.
- Mobile Number ***: A dropdown for country code (set to +91) and an input box for the number (81234 56789).
- Gender ***: Radio buttons for 'Male' and 'Female'.

Bottom Screenshot: Payment Details

The 'Payment Details' form includes the following fields:

- Cost**: A single input box.
- Payment Details ***: A dropdown menu currently showing '-Select-'.

At the bottom of the form, there are 'Submit' and 'Reset' buttons.
